

Job Title: .NET Developer

Experience: 5+ Years

Location: Dubai, UAE

Employment Type: Full-Time

Visa: Company provided

Job Description:

We are looking for an experienced .NET Developer with strong front-end design skills to join our team in Dubai. The ideal candidate will have 5+ years of experience in .NET Core or .NET 8.0, C#, MVC, and ideally WinForms development. In addition to back-end proficiency, you should have a strong grasp of front-end design, ensuring intuitive and visually appealing user interfaces. Knowledge of Agile/Scrum and DevExpress is a plus.

Key Responsibilities:

- Develop and maintain web and desktop applications using .NET Core or .NET 8.0, C#, MVC, and WinForms.
- Design and develop high-quality, responsive front-end solutions with JavaScript, jQuery, and React.
- Create visually appealing and user-friendly interfaces with strong UI/UX design principles.
- Utilize SignalR (basic knowledge acceptable) to implement real-time features.
- Write and optimize LINQ queries and complex SQL queries for efficient data management.
- Work with SQL Server databases to design, develop, and manage data access.
- Leverage DevExpress components for enhanced UI/UX (if applicable).
- Participate actively in Agile/Scrum processes, including sprint planning, daily stand-ups, and retrospectives.
- Contribute to continuous integration and deployment pipelines.
- Ensure high-quality code through code reviews and best practices adherence.
- Collaborate with cross-functional teams to deliver robust, scalable applications.

Optional (Added Advantage):

- Experience with mobile development.
- Familiarity with DevExpress components for WinForms or web applications.

Requirements:

- 5+ years of experience with .NET Core or .NET 8.0, C#, MVC, and WinForms.
- Strong front-end design skills, with experience in JavaScript, jQuery, React, and responsive UI/UX design.
- Basic knowledge of SignalR for real-time communication.

- Competitive salary package.
- Company-provided visa.
- Opportunity to work on challenging projects in Dubai's tech hub.
- Work in an Agile/Scrum-driven environment.
- Professional development and growth opportunities in a collaborative and dynamic team.
